EDWARD TURNER, M.D. . . . . Chemistry.

# REPORT OF THE COUNCIL

TO

# THE PROPRIETORS.

*26th February* 1834.

THE Council, in presenting their Report for the present year, have to congratulate the Proprietors on the improvement which has taken place in the state and prospects of the University. The number of Students entered for the present Session is such as, upon the reduced scale of expenditure, to enable the University, for the first time, out of its proportion of the fees, to meet the annual ordinary expenses of the Institution.

## Finances.

Soon after the last Annual General Meeting, the Professors unanimously proposed to the Council to guarantee to the University during this Session an income of £3181, provided the ordinary expenditure were restrained within certain limits, by means of reductions, which the Professors pointed out. The Council accepted the offer of the Professors; and although the increase of the income of the University will render it unnecessary to resort to this guarantee, yet it is gratifying to the Council to report this proof of the liberality and zeal of the Professors, and of their confidence in the ultimate prosperity of the Institution.

The Council have the highest satisfaction in reporting the

Feb. 1834. munificent donation of £1000 to the University by an unknown friend, under the name of a "Patriot." This sum remains invested in the Exchequer Bill presented to the University; and the Council are considering the expediency of appropriating it in some way which shall be useful to the University, and serve to perpetuate the memory of the gift.

Expense of School.—A heavy extraordinary expense has been incurred by the necessity of providing additional accommodation for the School, the management of which was much impeded by the dispersion of the Classes in distant and inconvenient rooms. The Hall and the rooms beneath it are now devoted to this part of the establishment, and the space thus provided is so ample as to afford accommodation not only for the present large number of boys attending the School, but also to admit of a considerable accession to that number. In order to meet the expense of flooring the Hall and fitting up that part of the building, and of some alterations required by the removal of the School (viz. £739), the ten Proprietors who had already advanced £100 each (see page 4. of the last Report,) agreed to receive only one half of their loans for the present, leaving the remainder in the hands of the Council without interest.

Mortgage.—The loan of £4000 upon mortgage was effected according to the terms approved of by the Proprietors at the Special General Meeting in August last; and all the debts of the University were discharged, with the exception of the moiety of the loan of £1000 already mentioned. The subscriptions entered into pursuant to the resolution of the last Annual General Meeting amounted to the sum of £173 10*s*. in Donations, and £180 11*s*. in Annual Subscriptions. The continuance of the latter for a few years may be necessary to meet the interest of the mortgage debt: but there is every reason to hope that the increase of the funds of the University derived from Students will shortly be such as to enable it not only to discharge the ordinary annual expenses of the Institution, but also to keep down the interest of the debt, and to provide a fund to accumulate for its liquidation.

CAPITAL.—The pecuniary capital of the University may be thus stated: Feb. 1834.

| | £ | s. | d. |
|---|---|---|---|
| Shares of £100 fully paid | 148,700 | 0 | 0 |
| 115 ditto, whereon Instalments are still due | 6,990 | 0 | 0 |
| Forfeited Shares | 800 | 0 | 0 |
| Subscriptions | 180 | 11 | 0 |
| Donations | 2,841 | 15 | 0 |
| Donation of a "Patriot" | 1,000 | 0 | 0 |
| Ditto of Subscribers to Ricardo Fund | 500 | 0 | 0 |
| Legacy of Mr. Clark | 45 | 0 | 0 |
| Total Cash received, or real capital | £161,057 | 6 | 0 |
| Mortgage | 4,000 | 0 | 0 |
| School Loan | 500 | 0 | 0 |
| | £165,557 | 6 | 0 |

The following has been the expenditure of the Institution, from the commencement to the present time:

| | £ | s. | d. |
|---|---|---|---|
| Land | 30,000 | 0 | 0 |
| Buildings | 96,240 | 8 | 6 |
| Furniture and Fixtures | 3,526 | 17 | 11 |
| Philosophical and Chemical Apparatus | 3,413 | 7 | 4 |
| Museums of Anatomy, of Materia Medica and of Natural History | 5,706 | 13 | 5 |
| Expenses of the Dispensary beyond the Fees of Students | 1,023 | 12 | 10 |
| Libraries | 2,886 | 13 | 2 |
| Guarantees to Professors | 6,298 | 2 | 1 |
| Expenses of Management beyond the income from Fees | 12,107 | 15 | 0 |
| House Carpenter's Stores | 243 | 13 | 5 |
| Expenses attending admission of School, including play-ground and fittings | 1,550 | 8 | 4 |
| Invested in Government Securities | 1,545 | 0 | 0 |
| Cash at Bankers | 1,014 | 14 | 0 |
| | £165,557 | 6 | 0 |

Subjoined to this Report is an account showing the estimated expenditure of the last Session, and the real expenditure.

It is gratifying to the Council to observe, that with one or two trivial exceptions, the reduced estimate of ordinary expenditure has been precisely verified. A column is added of the

Feb. 1834. probable expenses of the present Session, which shows a further reduction; this, however, has been resorted to rather to meet the present circumstances of the University than from a conviction of its general expediency.

### Students.

The following is a statement of the number of Students in the University on the 22nd of February 1833, and 22nd of February 1834.

| | 1833. | 1834. |
|---|---|---|
| Faculty of Arts | 86 | 104 |
| Ditto of Law | 64 | 18 |
| Ditto of Medicine | 288 | 347 |
| *Pupils in the Junior School | 229 | 284 |

In the Appendix to this Report is an enumeration of the Classes, with the number of Students attending each on the 22nd of February 1833, and 22nd of February 1834.

The amount received for Fees on that day in the last Session was £6158; it was this Session £7343 15*s*., making an increase of £1185 15*s*.

Thus, with the exception of the Law, every department in the University exhibits encouraging signs of improvement.

Law Classes.—The diminution in the number of Students in the Faculty of Law may be attributed partly to the fact of the Professor of Jurisprudence having abstained from lecturing altogether this Session, partly to the establishment of Lectures in the Inner Temple and at the Law Institution in Chancery Lane, the immediate neighbourhood of which places to the Law Offices has tended to withdraw Students from the Class of English Law in the University.

Mr. Amos has given notice of his intention to resign his Professorship at the end of the present Session; and the Council are about to take steps to fill his place. Notwithstanding the unfavourable circumstances which have been adverted to, the Council cannot but feel persuaded that this Chair is one which

* The number of Pupils entered between the first of October 1832, and the 20th of February 1833, was 250; the number entered in the corresponding period in this Session is 318.

is calculated to attract a large class of hearers, not only among those who are intended for the profession of the Law, but among others, (especially Students completing their education at the University,) who will by degrees perceive the need which all men have of an acquaintance with the institutions under which they live, and by which they hold their property. Feb. 1834.

The Council look forward to the time when, as the other departments of the University gain strength, the original design propounded by them in the Report of 1829 may be fulfilled, and a complete School of Law may be established; by filling the Chair of Civil Law, and by instituting Professorships of the Law of Real Property, and of the Doctrines and Practice of Courts of Equity.

Coward College.—The Trustees of the College endowed by Mr. Coward for the education of young men for the ministry have acted upon the intention announced in the last Report, by availing themselves of the Classes of the University for the instruction of their Students in all branches of knowledge except Theology.

## Professorships.

The Senate, considering that the University would acquire increased reputation and usefulness by extending the subjects of study, recommended to the Council the institution of Professorships of Geography, the Arts of Design and Mineralogy; and the Council have the satisfaction of announcing the appointment to the first of these Chairs of Captain Maconochie, R.N., Secretary to the Royal Geographical Society. The other two Chairs are not filled.

The Council have also the satisfaction of announcing the appointment of the Rev. Robert Vaughan to the Chair of History, which has been vacant since the year 1830.

The Professorship of Oriental Languages has been divided, by separating the Chair of Sanskrit from that of the modern Oriental Languages, viz. Persian, Arabic and Hindoostani.

The Council are happy to state that Dr. Rosen has accepted the Chair of Sanskrit, which was offered to him by the Council, at the recommendation of the Senate; and Mr. Forbes Falconer

Feb. 1834. has been appointed Professor of Persian, Arabic and Hindoostani.

The Council have also appointed M. Merlet to be Professor of the French Language and Literature, of which he has hitherto very successfully taught the elements.

The Council have this day had reported to them a liberal offer by J. M. Morgan, Esq., one of the Proprietors, to endow with One Hundred Pounds a year, during five years, a Professorship of education, subject to certain conditions. The Council will take this offer into their immediate consideration.

## Hospital.

The Proprietors will have observed the progress that has been made towards the erection of a Hospital. The pecuniary affairs of that Institution stand thus:

| | £ | s. | d. | £ | s. | d. |
|---|---|---|---|---|---|---|
| Expenses of Building already incurred: | | | | | | |
| Paid..... | 3023 | 11 | 2 | | | |
| Due..... | 993 | 10 | 9 | 4017 | 1 | 11 |
| Required to complete the Building .... | 2000 | 0 | 0 | | | |
| Required to furnish the Building ..... | 1000 | 0 | 0 | | | |
| Expended for Management from 1st of August 1832 ..... | 339 | 8 | 1 | | | |
| Required for Management until completion of Building, (say) ..... | 200 | 0 | 0 | | | |
| | | | | 3539 | 8 | 1 |
| Total expense of founding Hospital ..... | | | | 7556 | 10 | 0 |
| Subscriptions already received ..... | 3538 | 13 | 6 | | | |
| Ditto in arrear ..... | 419 | 19 | 6 | | | |
| Queen Caroline Fund..... | 1200 | 0 | 0 | | | |
| | | | | 5158 | 13 | 0 |
| Amount required to open the Hospital ..... | | | | £2397 | 17 | 0 |

This sum is so small when compared with the importance of the objects to be attained, that the Council do not doubt that the North London Hospital will speedily be opened; and they cannot too strongly recommend to the Proprietors an Institution which has such powerful claims on them, whether they consider the benefit it will confer on the neighbouring poor, or the efficiency and increase of the Medical School of the University.

At the same time the Proprietors will remark, that the establishment of the Hospital will save to the University about £150 per annum, the average annual excess of expenditure upon the University Dispensary*. Feb. 1834.

## General Management and Prospects of the University.

The scheme of management sanctioned at the last Annual General Meeting, as well as the Rules for the discipline of the University, continue fully to answer the expectations of the Council and Professors.

The table of attendances, already sent to the Proprietors, shows that during the eleven months which the table comprises, there had been sixteen meetings of the Council, thirty-seven of the Committee of Management, and thirteen of the Senate; the average attendance on the Council exceeding eleven, and that on the Committee of Management exceeding four Members.

Charter.—The Council have not yet overcome the difficulties which impede their attainment of a Charter of Incorporation; but they have taken measures to bring before the Privy Council the objections of the Universities of Oxford and Cambridge; and they trust that a long time will not elapse before their just claim to this advantage shall be allowed.

In the mean time it is gratifying to the Council to mention, that in September last the United Associate Synod of Scottish Ministers resolved, at the instance of the Presbytery of London, that the Synod would recognise attendance upon the University of London as equivalent to attendance at the usual Classes of the Scotch Universities, in candidates for admission to the Divinity Hall.

* A Subscriber of One Guinea per annum will be entitled to recommend out-patients; and a Subscriber of Three Guineas per annum, both in- and out-patients.

A Donor of Ten Guineas in one sum will be entitled for life to recommend out-patients; and a Donor of Thirty Guineas in one sum both in- and out-patients, and to transmit the privilege to his or her next heir.

The fees received from Students attending the Hospital, will be devoted exclusively to the support of the patients.

Feb. 1834. BUILDING.—The Council have received a report from the Architect on the state of the Building, from which they quote the following paragraph.

"I can state with the greatest confidence, that the whole of the walls and the perfect *planes* and *lines* of the roof indicate the most substantial construction: that there are some minor defects in the execution it is impossible to deny; but in general the state of the building, with one small exception, denotes a strength and durability which a few slight repairs and occasional inspection will ensure."

---

In conclusion, the Council feel pleasure in stating that but one feeling of zeal for the advancement of the University pervades the whole Establishment; and after strict examination of all the circumstances of the Institution, they can safely assert, that there never was so much reason as now exists for congratulating the Proprietors upon the state and prospects of the University.

THOMAS COATES,

SECRETARY.

*Annual General Meeting of Proprietors, Wednesday, 26th February* 1834.

THE RIGHT HON. JAMES ABERCROMBY, M.P., IN THE CHAIR.

THE Secretary read the foregoing Report.

Upon the motion of LORD EBRINGTON, the Report was received, and ordered to be printed and circulated among the Proprietors at the discretion of the Council.

The following accounts, signed by the Auditors, were laid on the table.

An account of Receipts and Expenditure from the 1st of January 1833, to the 30th of September following. A similar account from the 1st of October to the 31st of December 1833.

The balance-sheet of the affairs of the Institution to the 31st day of December last.

Upon the Motion of Mr. TOOKE, Col. ALEXANDER and Major NAYLOR were requested to act as Scrutineers.

The Chairman read the following names of the Members of Council, and of the Auditor going out of Office, and of the Proprietors nominated in their stead.

| *Council Members going out.* | *Proprietors put in Nomination.* |
|---|---|
| The Right Hon. JAMES ABERCROMBY, M.P. | The Right Hon. J. ABERCROMBY, M.P. (for re-election.) |
| Viscount EBRINGTON, M.P. | The Rev. E. A. DUNN. |
| JAMES LOCH, Esq., M.P. | The Rev. Dr. FELLOWES. |
| Z. MACAULAY, Esq. | JOSEPH HUME, Esq., M.P. |
| JOHN SMITH, Esq., M.P. | JOHN MARSHALL, Esq., Jun., M.P. |
| HENRY WARBURTON, Esq., M.P. | REMINGTON MILLS, Esq. |
| | The Rev. FRANCIS MOORE. |
| | The Rev. R. H. SHEPHERD. |
| | JOHN SMITH, Esq., M.P. (for re-election.) |
| | The Hon. Lieut.-Col. STANHOPE. |
| | THOMAS THOMPSON, Esq. |
| | HENRY WARBURTON, Esq., M.P., (for re-election.) |
| | G. W. WOOD, Esq., M.P. |

AUDITORS.

| | |
|---|---|
| [ISAAC SOLLY Esq., (retiring.)] | HENRY JAMES PRESCOTT, Esq. |

Upon the motion of Mr. STRUTT, seconded by Mr. ROBINSON, it was resolved unanimously,—

That the Proprietors have heard with much gratitude of the munificent donation of £1000 by an unknown friend; and they cannot avoid expressing how much they consider the value of that donation enhanced by its being unaccompanied by any conditions.

Upon the motion of Colonel JONES, seconded by Mr. SASS, it was resolved unanimously,—

That the Thanks of the Proprietors be given to the Professors for their exertions on behalf of the University.

The Scrutineers certified to the Chairman, under their hands, that the following Proprietors had been duly elected as Members of the Council.

| | |
|---|---|
| The Right Hon. J. ABERCROMBY, M.P. | JOHN SMITH, Esq., M.P. |
| JOHN MARSHALL, Esq., Jun., M.P. | HENRY WARBURTON, Esq., M.P. |
| REMINGTON MILLS, Esq. | G. WM. WOOD, Esq., M.P. |

And HENRY JAMES PRESCOTT, Esq., as Auditor.

Upon the motion of Mr. FREND, the Thanks of the Proprietors were presented to the Chairman.

JAMES ABERCROMBY, *Chairman.*
